**Subject:** Premises Licence application Marleys 28 Bury Road

Environmental Health raise an objection to this application on the grounds of the prevention of public nuisance. The premises have been used for retail in the past and the acoustic properties of the building aren't known. There are current issues with noise breakout from other licensed premises in the town centre around the inappropriate structure and there is concern that the live and recorded music and people noise could be detrimental to the residents living in the area.

Regards
