The first health walks have taken place in Stubblelee Park and a junior park run in Victoria Park is being developed.

Community research has been completed in Stacksteads and is ongoing in Worsley, the research will be analysed and fed back to the primary care network to identify solutions.

- The processing of Disabled Facilities Grants has reduced during Q2 due to a 66% increase in more complex cases which has negatively impacted the processing and turnaround of applications. Performance Summary

- During Q2, the Council has continued to develop and finalise the Council's new website design and back-office system to improve customer services. Additional security measures and firewalls have been created to detect and prevent cyber-attacks/issues. The new website will be launched at the beginning of Q3.

- To support the health and wellbeing of staff, 2 further Health and Wellbeing champions have been recruited and 3 champions have completed a Level 3 Skills for Workplace qualification.

Actions for Improvement

- During Q2, the Council implemented a new purchasing software which had minor technical issues when first implemented, impacting the percentage of invoices paid within 30 days. This issue has now been resolved and auto-generated invoices have been introduced. In addition, regular meetings are held with Properties and Finance to chase any outstanding invoices.
- The number of commercial waste subscribers has shown a reduction due to a system error at the beginning of the financial year. This error has been rectified and the new figures will be used to develop a revised base-line target for commercial waste customers.
- During Q2, there has been a significant increase in the number of employee leavers; 1 employee leaver was due to expiry of temporary contract, 1 employee leaver moved to a job closer to home, 2 employee leavers were dismissed under the performance management process and the 7 remaining employee leavers have left to further their careers (with the exception of 2 employee leavers) within local government. To monitor the reasons for employee leavers, the exit interview process has been reviewed and will be completed by a member of People and Policy to identify patterns or concerns in relation to the reasons for leaving.
- The level of sickness absence has significantly increased during Q2, with 6 employees (4.39 days per FTE) related to long term absence (other musculo-skeletal stated as the main cause of absence) being managed under the Council's Absence Management Policy. 2 employees have now returned to work. The main reason for short term sickness absence (2.66 days per FTE) is infections, colds, flu (0.79 days per FTE confirmed Covid-19 cases although government advice is not to test therefore more days absence could be attributed to Covid-19). Historically payment of the flu jab has been offered to all staff, it is proposed to continue this offer this year to mitigate further absences due to infections, colds, flu absences.
- During Q2, 28 complaints were received, 8 complaints were not answered within the 10 day response timeline, however action was taken to rectify the complaint within the timeline for 4 of the complaints but the response letter was not sent, all the complaints within Q2 are now closed at level 1.

- 4 Member Enquiries were received (all to Operations) during Q2, all 4 enquiries have been responded too and closed, however due to the nature of the enquiries the response time exceeded the 10 working day response target.
- During Q2, 51 MP enquiries were received. Although 11 enquiries were not responded to within the 10 days response timeline, the enquiries were responded to within the following 10 days after the response timeline with the exception of 1 enquiry which took 54 days due to challenges to locate the owner of a property (Waterbarn Church).

Corporate Risk Register

Risk 1 – Sustainability of the Medium Term Financial Strategy

Responsible Officer - Karen Spencer

Description

The Council's latest Medium Term Financial Strategy update published February 2022 indicates an underlying funding gap of c£600k per annum from 2023/24 onwards. The Council must take appropriate action in order to balance its annual expenditure against its available annual income and other revenue resources. The Council has a legal obligation to publish an annual balanced budget; this means its budget expenditure must equal its available income and any available reserves. Council reserves are limited and equate to only circa 3 years given the anticipated funding gap. Therefore additional income must be identified or annual costs reduced in future years. The current cost of living crisis may also add to the pressure on the Medium Term Financial Strategy through pay award, utility costs, contract inflation and Council Tax/NNDR collection rates.

Risk Consequence

If the Council is not able to prepare a balanced budget there would be legal ramifications, but would ultimately impact on the level of services the council is able to deliver to Rossendale residents and would result in major reputational damage.

Initial risk assessment RAG status (without mitigation)

Likelihood	Impact	Overall Risk	Status
B	2	B2	RED

Mitigation

The Medium Term Financial Strategy does not indicate a significant narrowing of the gap in the next four years. New income generating opportunities will need to be identified to generate additional revenue, along with improved efficiency and effectiveness of service delivery. Departments across the council will need to be challenged to become more effective.

Q2 Update

The 2022/23 outturn has improved from the estimated position that was included in the February 2023 Medium Term Financial Strategy and has slightly improved the reserves balance. However, the Council is estimated to run out of reserves during 2026/27. Officers continue to investigate alternative delivery mechanisms and to maximise efficiencies and make savings wherever possible, however, it is difficult to making savings without affecting service delivery. The budget process for 2024/25 has commenced and income and expenditure are being scrutinised on a line-by-line basis. The Council continues to maximise income opportunities where possible. The Corporate Management Team review the need for all vacant posts prior to recruitment and have introduced a freeze on non-essential expenditure. The Empty Homes scheme continues to have an adverse impact on the Medium Term Financial Strategy, officers continue to monitor and manage the scheme closely.

Risk 9 – Financial Sustainability of Council Owned Leisure Assets

Responsible Officer – Rob Huntington

Description

National lockdowns due to Covid-19 resulted in Council owned leisure facilities closing for extended periods. During closure no income was received and outside of lockdown periods, income was significantly reduced. The cost of living crisis will have a significant negative impact on utility and salary costs for the Trust. This has impacted the financial sustainability of the Trust.

Risk Consequence

If the Council owned leisure assets are to be sustained in the longer term, the operators of the facilities have little recourse to additional funding to survive other than through the Council. This financial impact was managed in 2021/22 through additional government grants and Council support, however the real impact is likely to be felt in 2022/23 and continue through 2023/24.

Mitigation

A report on the impact of all facilities has been produced by KKP and recommendations to minimise impact have been implemented.
