1. RECOMMENDATION(S)

1.1 That Cabinet note the content of the Q1 financial monitoring report.

2. EXECUTIVE SUMMARY

- This report provides an indicative estimate of the Council's General Fund Revenue outturn, Collection Fund performance and Capital outturn for the year ended 31 March 2025.
- At 30 June 2024, the Council is estimating a favourable variance of £137.9k against an approved net budget for the year of £10,598k.
- The approved Capital Programme for 2024/25 was agreed in the sum of £11,409k, to this was added prior year slippage of £7,166k, plus new additions of £604k making a revised capital programme for 2024/25 of £19,179k. At this early stage of the year the estimated capital outturn for the year is £5,712k. Estimated slippage requirements into 2024/25, including the associated funding sources, currently total £7,770k, this includes £2,794k disabled facility grants.

3. BACKGROUND

3.1 In February 2024 the MTFS set a balanced Budget of £10,598k for the year based on the assumptions made at that time and supported by £688k from reserves. The pay award, inflation rates, high vehicle fuel costs and high utility costs resulted in the requirement to use reserves to fund the budget gap.

4. DETAILS

Revenue

- 4.1 This first monitoring report of the year 2024/25 is forecasting a favourable variance of £137.9k when compared to an original budget of £10,598k.
- 4.3 The most notable variances are:
 - The budget contains a £225k vacancy savings target which is based on potential savings that may be obtained due to additional leave purchase and staff turnover, i.e. the salary saving made between an employee leaving the authority and the new recruit commencing. Staff cost savings are currently estimated to be £57k to the year-end, this is £168k short of the vacancy savings target of £225k. However, the estimates currently assume an extra 6.2% (average) pay award, the actual pay award has not yet been finalised. The consequences of the vacancy target are currently under review by Senior Leadership Team.

Version Number:	1	Page:	1 of 4

- At this stage it is anticipated that there will be an underspend on Empty Homes of approximately £100k
- As at Q1 we anticipate potential interest income of £180k for the year.
- The £33.3k favourable variance within Finance relates to staffing costs. There has been a transfer of staff into different roles within the department which has resulted in savings to two budgeted roles.
- At Q1 there is a predicted overspend of c£169k within the housing team on temporary accommodation. The team are actively working to reduce this overspend. It must be noted that we don't currently have supported accommodation, that provides the necessary service to support people, and which would also allow us to attract full housing benefit. This is not unique to Rossendale and is a national challenge.
- 4.4 Full details and explanations are included in appendix 1.

CAPITAL

- 4.5 The current estimate of Capital Receipts brought forward at 1st April 2024 totalled £43k.
- 4.6 The value of the budgeted capital scheme expenditure for 2024/25 was 11,409k to which £7,166k slippage has been added. New schemes have been added during Q1 totalling £505k as set out on page 29 of appendix 1, this includes £165k of additional DFG funding. The revised capital programme for 2023/24 is £19,179k with an indicative outturn of £5,712k.
- 4.7 Anticipated slippage into 2025/26 is estimated at £5,712k however we are still very early in the year.

TREASURY

- 4.8 At the end of June the Council's bank balances were c£13.2m. This is lower than in previous years due to funds being used for internal borrowing for capital schemes and all residual Covid monies being returned to Government in the previous year.
- 4.9 Increasing interest rates over recent months along with proactive treasury management resulted in the Council increasing its interest income budgets for 2024/25 to £109k from £9k in 2022/23. (also increased in 2023/24 to £120k slight reduction in 2024/25 due to predicted interest rate reductions). Although it is very early in the year we are optimistic that this budget will be exceeded.
- 4.10 Details are included in Appendix 1.

COLLECTION FUND

- 4.11 Council Tax collection statistics have not yet returned to pre-pandemic levels. Whilst Business Rates collection performance appears to have returned to pre-pandemic levels, the rates are distorted by transitional reliefs given to businesses due to the Business Rates revaluation, which kicked in from April 2023. This remains an area of focus into 2024/25 given the 'Cost of Living Crisis' and potential impact on future collection.
- 4.12 For 2024/25 the Council Tax collection fund is predicting a surplus of £2,171k, with Rossendale Borough Council's share being £294k.
- 4.13 The NNDR collection fund is predicting a surplus of £241k with the Council's share being £96k.

Version Number:	1	Page:	2 of 4
-----------------	---	-------	--------

- 4.14 Current estimates are that the Council will benefit from a pooling gain of £844k in 2024/25 through being a member of the Lancashire Business Rates Pool.
- 4.15 Details are included in Appendix 1.

EARMARKED RESERVES

4.17 The total cash-backed earmarked reserves brought forward at 1st April 2024 were £12,021k (after adjustment for Business Rate relief support repayable to government). The Earmarked Reserves closing balance at the 31 March 2025 are estimated to be £11,058k.

5. RISK

All the issues raised and the recommendation(s) in this report involve risk considerations as set out below:

- The cost of goods and services continue to increase. General inflationary increases are being experienced across all contracts that are linked directly to RPI and CPI. High inflation and interest rates are also impacting on the capital programme. On average vehicle replacement costs are running c20% over and above the estimates included in the capital programme. Rising inflation is also having an impact on the construction industry pushing up costs, increasing tender prices.
- Financial monitoring of General Fund service departments focuses on the key risk areas of employee costs, income, implementation of agreed budget savings, emerging issues (eg inflationary pressures and rising living costs) and opportunities, in particular service department net expenditure.
- Budget setting for future years is now treated as an integral part of financial monitoring during the current year and the impact of variances being reported will be considered by officers when preparing the detailed 2025/26 budgets.
- The council must explore ways of bridging its forecast annual funding gap. Amongst other things this may include becoming more commercially aware, aiming to grow its resources alongside the challenges to its cost base.
- If the level of Council Tax support claims increase as a result of the current economic climate or the level of Council Tax bad debt increases, this will have an adverse impact on the income the Council receives.
- The level of future Government funding is uncertain. Whilst the incoming Government are suggesting that three year settlements will be introduced, in reality the level of Government funding beyond 2024/25 is unknown.

6. CONCLUSIONS

- 6.1 Robust monitoring of the General Fund and MTFS is essential to control risks expressed in section 5 above and the Council continues to undertake this.
- 6.2 Since 2010 the Council has seen its central government funding reduced by c£6m pa in real terms. Since that time the Council has reduced its budget requirement accordingly and continues to seek efficiencies and grow income were possible. However, the current economic climate, is making it impossible for the Council to balance it's in year income and expenditure.

Version Number:	1	Page:	3 of 4
V CI CICITI I Valificati	•	. 496.	9 9: 1

- 6.3 The Council is continuing its cost reduction programme, however Members are facing increasingly difficult choices in an attempt to balance expenditure with available resources over the medium term, with energy costs, vehicle fuel costs, the inflation rate and the pay award making this more difficult.
- 6.4 The Finance Settlement for 2024/25 was confirmed in February 2024. The settlement provided an increase in core spending power for 2024/25 of circa 3%, prior to factoring in any council tax increases. The ongoing level of Government funding poses a significant risk to the MTFS.

7. FINANCE

The financial implications are fully set out above and in Appendix 1.

8. LEGAL

Unless specifically commented upon within the report, there are no specific implications for consideration.

9. POLICY AND EQUALITIES IMPLICATIONS

There are no specific implications for consideration. Staffing issues have been discussed with colleagues in the People & Policy team.

10. REASON FOR DECISION

Cabinet are recommended to note the Q1 monitoring report.

Appendix 1

Financial Monitoring Report

2024/25 as at end of June 2024

Including a Glossary of terms on page 39

General Fund Revenue Operations – pages 4 to 21

Despite the current economic climate continuing to have a significant impact on the Council in Q1, the financial performance has been favourable compared to budget. The full year impact is predicted to result in a favourable variance of £137.9k on the General Fund when compared to the original budget of £10,598k. This will reduce the impact on reserves in the year. The significant budget variations are highlighted on page 6.

Earmarked Revenue Reserves - page 22

The total cash-backed Earmarked Reserves brought forward at 1st April 2024 were £10,326k.

The opening balance on the Transitional Reserve was £4,865k. The Council has received funding guarantee of £290k and £85k Services Grant as part of the 2024/25 Local Government Finance Settlement. This funding will be released in full as budgeted, to fund 2024/25 Net Service costs.

The indicative closing balance of earmarked reserves at the 31st March 2025, is estimated at £11,058k. Based on current plans and forecast commitments, and if nothing else changes, at the time of this report, available earmarked reserves are anticipated to run out during 2027/28. The earmarked reserves figure includes ringfenced sums of £2,054, this means that the funding was received for specific projects and may be subject to clawback.

Government Grants Unapplied – page 23

The opening value of Government Grants Unapplied at the 1st April 2024 was £4,183 of which £2,645 related to Disabled Facilities Grants. The balance carried forward into 2024/25 relates to previous years' slippage. The allocation of Better Care funding for DFGs for 2024/25 is £1,265k, giving total DFG resources available of £3,737.1k. The remaining balances related to UK Shared Prosperity Funding and Capital Regeneration Programme monies which are anticipated to be spent in full during 2024/25.

Staff Monitoring - page 24

The table on page 23 shows the forecast staffing variances for the year based on quarter 1 actuals. The forecast underspend for the year is currently £150k. However, consideration needs to be given to the pay award which at the date of publication of this report is anticipated to average 6.2% which equal £118k additional cost, once this has been factored in, the adjusted underspend will be £57k which includes the additional leave (£25k). Therefore, the shortfall will be £168k on the 2024/25 budget of £225k (£200k vacancy savings and £25k leave purchase).

Treasury & Cash Management - page 25 to 29

At the end of June, the bank balances were £13.5m. These resources continue to be relatively high due to various grant funding, ie UKSPF fund, HHSF5 etc. Despite Bank of England base rate increases over the last two years, it is now anticipated that rates will begin to fall. The Council is balancing the use of instant access accounts with shorter-term 'fixed' deposit facilities, to increase investment return within the scope of the approved Treasury Management Strategy. Fixed deposits are being made with high quality counterparties (Central Government, Local Authorities) where risk is considered low and returns are more closely linked to movement in the prevailing Bank Rate. Interest income is currently expected to exceed the budget for the year.

Responsible Section/Team	Financial Services	Page	2
Responsible Author	Finance Manager	Produced	30/06/2023
Dates covered in this review	2023/24 Monitoring	Next review	30/09/2023

The provision for doubtful debt at the 1st of April 2024 was £380.6k, plus a further £5.4k set aside for licensing debt, against £481k of doubtful debts. The level of cover for sums outstanding and that risk going unpaid is considered adequate at this time (c84% cover) with no further movement proposed. However given the 'Cost of Living Crisis' dominating the headlines, this position will be kept under review.

Capital Receipts - page 31

The total Capital Receipts rolled forward into financial year 2024/25 is £2,506k, but this is subject to review and may change.

The total value of Capital Grants receivable in the financial year 2024/25 is £9,195k. As all figures are indicative at this point in the reporting cycle, work continues to determine the most effective method of funding the Council's Capital Programme.

On current assumptions, the Capital Receipts Reserve is expected to total £2,545k at the yearend 2024/25, reflecting the most cost effective method of financing the Council's future Capital Programme. Whilst this is considered to be the most cost effective method of financing.

Capital Programme and Funding – page 31 to 35

The original Capital Programme for 2024/25 is £11,409k, including an estimate of £1,000k for DFGs and £740k for replacement operational vehicles. The slippage from 2023/24 was £7,166k, including £2,529k of DFG's. There is also an additional £265k for DFGs

The indicative capital outturn at 31st March 2025 is spend in the sum of £13,467k. The Capital Outturn will be reviewed throughout the year.

Collection Fund 2024/25 (Council Tax & NNDR) - page 36 to 38

Council Tax collection levels are recovering. However, they are still not back to pre-pandemic levels. Business rate collection appears to have returned to typical levels experienced pre-Covid, however there were two major appeals in 2022/23 which have distorted the comparative figures.

The Council Tax account is predicting an early surplus of £137k for Rossendale.

The **business rates** collection fund is predicting a deficit of £581k in 2024/25, the Council's share of the deficit is £581k. The Council has a Business Rate Retention Reserve to provide for any peaks and troughs in business rate income, therefore this deficit will be charged to the reserve. The reserve also contains funds from Government to cover the additional reliefs granted to business during Covid. Due to the complicated accounting process for business rates these funds have been released from the reserve into the collection fund over three years, of which 2023/24 is the final year.

Although it is anticipated the Council will suffer a collection fund loss, a pooling gain of 984k is estimated. The February 2023 MTFS included a pooling gain contribution of £500k, therefore if the current forecast remains at year end, it will result in a £484k surplus against that income budget, thus contributing towards alleviating pressure on the MTFS.

Dates covered in this review	2023/24 Monitoring	Next review	30/09/2023

The position at Q1 2024/25 shows a favourable variance of £137.9k

The main variances are shown below: -

- Staff cost savings are estimated to be £57k to the year-end position, this is £168k short of the vacancy savings target of £225k. However, the estimates currently assume an extra 6.2% (average) pay award, the actual pay award has not yet been finalised.
- Fuel 'pump prices' continue to be monitored, Budgets for Fuel in 2024/25 remain at substantial levels totalling £480k which still includes the £60k premium for the use of HVO. In 23-24, due to the increasing differential between HVO and Diesel, a decision was taken to switch back to diesel until the two prices were more comparable. During Q1 2024/25 the differential between HVO and Diesel has reduced and HVO has been purchased during the period. As the two fuel types can be mixed, the decision regarding which fuel to use can be made on an order by order basis. At Q1 the surplus budget which includes £60k premium for HVO is £116k. So, if prices do rise due to global challenges there should be enough provision.
- Market income, budgeted at £28k, will not be received due to the refurbishment of Haslingden Market and there is an agreed rent free period with stall holders at Bacup Market until it closes for redevelopment. It is anticipated that this will at least be partially off-set by cost savings generated during market closures due to re-development works.
- The £33.3k favourable variance within Finance relates to staffing costs. There has been a transfer of staff into different roles within the department which has resulted in savings to two budgeted roles.
- In 2024/25 the Council has a total budget for Empty Homes related expenditure in the sum of £800k. This budget is split £300k (Revenue funding) and £500k (Capital funding.) At Q1 the predicted outturn is that the revenue out-turn will show an underspend of £100k and the capital underspend circa £300k. This is largely due to the considerable effort being made by the empty homes team to hand properties back in a timely and correct manner to avoid any future litigation. At the end of Q1, 18 properties remain on scheme.

Target Efficiency Savings 2024-25

The Council agreed, as part of the 2024/25 Budget processes, a number of Efficiency Targets, including Staffing and Asset Management.

Whilst the indicative outturn position noted above requires a small contribution from reserves to balance the 2024/25 budget, the table below summaries efficiency performance against the individual budget headings.

A simple RAG Status (red, Amber, Green) has been used. Additional commentary is also provided and these areas of performance are considered in more detail in the main body of the report.

Budget Proposals (Efficiency Targets)	2024-25	2024-25	Commentary At Q1
	£000	£000	
Income & Efficiencies Asset Management	Target	Q1	
			Target Exceeded due to rent review
Business Centre	(5)	· /	implementation.
			Budgeted Income will not be received
			due to the refurb of Haslingden Market
			and an agreed Rent free period for
			Bacup Market. This will be off-set against
			savings made due to the refurbishment
Markets	(6)		of the markets.
			Rent review ongoing. Tenant currently
Corporate Estates	(2)		occupying premises on original leases

Council Offices	(13)		currently under review
			These assets are under review and
Public Conveniences	(5)		additional opportunities for use explored
			Ops team still occupying Tup Bridge.
			Move out date not yet confirmed
			therefore costs forecast for 12 month
Depots	(11)		occupancy
			As part of the review of sports and
			leisure facilities it has become necessary
			to review utility usage at all sites. We are
	(0)		not predicting any savings until this is
Sports Grounds	(8)		complete As above
Public Halls	(2)		No above
	(52)	(3)	
<u>Staffing</u>			
	(-, .)		Continue to be reviewed. See separate
Various Staffing Savings	(71)	(32)	table
	(100)	/a=:	
	(123)	(35)	

As we can see in the above table, there is one area which has achieved and exceeded the targets set. Several of the above efficiency measures are dependent on the outcome of the sports and leisure facilities review, once this is completed it is hoped that budgeted savings will be achieved.

The staffing saving will be affected by the outcome of the pay-award for 24-25.

<u>Customer Service & ICT Highlight Report – Q1 (June 2024)</u>

Historic Issues

None.

Current Quarter's Issues

At Outturn variance is £38.6k adverse, the main changes being: -

- Benefits administration has made a saving of £12k due to additional grant income
- The benefits granted outturn shows an adverse variance of £121k. This is due to the
 Housing benefits subsidy being less than estimated. This is currently an estimation and
 will be monitored throughout the year.
- A review of IT professional subscriptions and licences is carried out throughout the year to check for any potential overspends in this area.

Future Issues

• The Council's contract with Capita includes annual indexation increases linked to the higher of CPI or AWE.

Operations Highlight Report - Q1 - 30th June 2024

Historic Issues

The service last year and prior years have always needed to rely on Agency Support.
This need continues into 2024-25. Fuel prices stabilised during 23-24 and so far this
trend continues. There is currently sufficient budget to cover the Fuel costs in 24-25 if
the fuel prices remain stable.

Current Quarter Issues

• At the end of Q1, Operations and Green Spaces have an adverse variance of £101k. Staffing costs are overspent by £227.8k which includes agency and overtime. A significant contributing factor is the difficulty in recruiting mechanic's for the workshop. The service workshop continues to use Agency which does cost more by around £20k. Additionally, within the refuse service area the forecast out-turn for agency throughout the year is £152k adverse compared to the budget but this is marginally offset by Refuse Salary savings of £8k. Despite making savings on the fuel budgets the efficiency saving expected for the services will not be met which is £87k.

Fleet

 This department currently has 2 vacant posts which are being covered by Agency staff at a higher cost and offsets any vacancy savings which has resulted in an overspend of £20k for the year.

Refuse

The shortfall in Garden Waste Service Subscriptions at the end of Q1 is £13k. At Q1 Fuel
is around 24% under budget, but future fuel prices remain uncertain. The fuel costs
forecast outturn is a net saving of £116k across operations but subject to possible
change.

Street Sweep

 At Q1 this service area is coming in within the budget as fuel is contributing to the savings that are being made. The only pressure in this area currently is overtime at time and a half and double time which has been incurred in Q1 and will be reviewed.

Parks

 At Q1 Parks are coming in underspent by £19.8k due to savings on fuel and there is one vacant post for the Parks Inspector. Playing Fields are within budget and so are the Play Grounds due to savings on insurance for the year. Within Playgrounds some S106 Funds have been released in Q1 of £10k.

Cemeteries

 Cemeteries income has come in on budget at Q1 but will be monitored over the future quarters. The budgeted running costs for the cemeteries have now been transferred into this area rather than the costs being recorded in Facilities.

The Future

- The Government has stipulated that by March 2026 every household will have a weekly food waste collection. This will be fully funded at least initially and from a capital perspective. The Council has been notified of the amount of capital funding it will receive, and is awaiting the revenue funding notification.
- The Council is now working up plans to deliver the waste transfer station. This will assist in driving through efficiencies in refuse collection operations, which will contribute towards funding the capital expenditure required to build a transfer station.

Environmental Health, Public Protection Unit and Licensing and Enforcement Service Highlight Report – Q1 – 30th June 2024

Historic Issues

Nothing reported.

Current Quarter Issues

• At the end of Q1 Environmental Health, Public Protection Unit and the Licensing and Enforcement budgets are underspent by £23.4k primarily due to staffing changes generating saving of £19.6k and below reports the breakdown within the services.

Environmental Health, Licensing and Enforcement

- At Q1 staffing costs are underspent by £8.3k as one member of staff is on reduced hours working 4 days a week and the new staff member has been appointed at the bottom of scale.
- Supplies & services are underspent by £8.5k within Licensing
- Income streams within Licencing at Qtr 1 are on track and within budget.

Public Protection Unit

- The staffing costs are now underspent due to staffing succession new manager appointed at lower point of scale £11k.
- The cost of dog services are currently within budget at Q1 with an underspend of £5.9k.
- During the year PPU has received contributions totalling £1.8k.

Future Issues

None

Economic Development & Regeneration Highlight Report – Q1 (June 2024)

Historic Issues

None

Current Quarter Issues

Planning & Building Control are showing an adverse variance of £3.7k

- Planning/Forward Planning staffing (inc agency/consultancy) costs are showing a favourable variance of £78.5k. Planning have 2 vacant posts
- Building Control staffing costs are projected to be on budget
- The Planning fee income is showing an underachievement of £6k, and pre-application fees have under achieve by £24.6k. This is in part due to a limit on applications being processed
- Building Control income are projecting an adverse variance of £2.4k.

Economic Regeneration has an adverse variance of £36.3k, which is broken down as detailed below: -

- Staff Costs in Economic Regeneration are slightly over budget due to the pay award. Direct Costs for Professional Fees and subscriptions are overspent by £7.2k.
- The Q1 forecast shortfall on Income for Markets is £28.7k as work has begun on Haslingden Market during 24-25 and Bacup Market Traders have been offered a rent free period until works on the site commence
- The Museum has slightly overspend by £0.5k Forecast but will be closely monitored.
- Tourism at Q1 is within Budget.

Housing has an adverse variance of £168.5k which is broken down as detailed below:-

- Private Sector Renewal Team have a current vacancy which has not yet been appointed to at Q1 giving potential savings of £23.6k for the year. This will be reviewed if the position is filled
- Staffing underspends at Q1 generated by the Housing Options Team is £14.8k due to staff being appointed at below budgeted rate generating some savings against the budget.
- RBC are receiving additional funding resources within Housing in addition to the budgeted amount of £71.1k. In addition, RBC are in receipt of additional Housing Benefit from DWP to cover the direct costs charged to the Housing Options Team for Bed & Breakfast charges from the hotels. This covers circa 1/7th of the costs incurred
- Most other budgeted costs at Q1 for resources on Homelessness are projected to underspend by an estimated £61k. With the exception of the costs associated with Bed and Breakfast. Over the last few years these costs have significantly increased and this situation is being closely monitored and other temporary accommodation options are being reviewed. It is anticipated that demand for this service will at best remain static but is likely to increase

Responsible Section/Team	Financial Services Page		16
Responsible Author	Finance Manager	Produced	30/06/2023
Dates covered in this review	2023/24 Monitoring	Next review	30/09/2023

- The forecasted overspend on temporary accommodation costs for 24-25 based on actual within Quarter 1 is £451,1k compared to £321.3k for 23-24 which is an estimated 40% increase in this current financial year. This is because housing benefit can only be recovered at the one bed Local Housing Allowance (LHA) rate for bed & breakfast costs incurred during the year. This is a national issue due to the increase in private rental costs and the fact that the LHA rate hasn't increased since 2020 until 2024 and is still not comparable to the Private Sector rent levels. The Housing Team are actively working to try to reduce this overspend:-
 - Officers are using the additional dispersed accommodation purchased
 - Additional properties have been purchased to reduce the number of families placed within B&B and the authority is looking to purchase additional properties in the year
 - More favourable rates have been negotiated with a B&B if a resident is placed for more than 6 weeks
 - Responsibility for some families has been reallocated to Children's Services

The Council is continuing to receive ring fenced grants during 2024/25 to help fund the increased costs of temporary accommodation. The situation will be closely monitored so decisions can be made as we progress through the year.

Property Services and Facilities Management is currently showing an adverse variance of £42.2k.

- Salary costs are showing a favourable variance of £31.6k. This is due to there being one vacant post
- Facilities running costs are showing a favourable variance of £2.2k
- The estates income is showing an overall adverse variance of £30.3k. The section is seeking new income streams and completing rent reviews to reduce this variance.
- Valuation Fees / professional fees are showing an over spend of £5.9k.
- Professional fees are showing an over spend of £20.3k due to enforcement advisory for evictions of Travellers
- The Business Centre room hire are projecting an under achievement of £9.9k. Property are looking to increase tenant occupancy which will seek to reduce this deficit.
- Spinning point departure charges are projected to under achieve by £5.8k
- Tree Felling across unmaintained land are projected to spend £20k

Future Issues

• Continued high gas and electricity costs are placing a strain on the Council's budget.

Corporate Management Highlight Report - Q1 (June 2024)

Historic Issues

None

Current Quarter Issues

The Corporate Management outturn is forecast to be a favourable variance of £296.8k, the main movements being: -

- Staffing cost projected variances at quarter 1 are £158.5k favourable:
 - Land Charges are showing an adverse variance of £2.4k
 - Democratic Services are showing a favourable variance of £41.1k vacant post and reduced working hours
 - Elections are showing a favourable variance of £5k
 - Corporate management savings of £53.6k due to the vacancy of the Director of Communities position.
 - o Financial Services is showing a favourable variance of £33.3k
 - People & Policy is showing a favourable variance of £23.1k
- Local Land Charges income is showing a favourable variance of £10.7k.
- Members costs are showing an underspend of £33.5k due to reduced number of councillors and cabinet members
- The Empty Homes scheme is estimated to have an underspend of £100k

Future Issues

None

Non-Distributed Costs & Capital Financing Highlight Report - Q1 (June 2024)

Historic Issues

 Savings on the pension costs fall into two areas; savings on historical pension costs as former employees pass away and the advance payment of pension costs at a discount, which reduce Council costs.

Current Quarter Issues

- Net interest for the year is a favourable variance of £180k as per the following:
 - Income relating to longer term, high interest, deposits had matured in this period.
 - o Officers have been working hard to maximise interest receivable on the Council's cash balances.

Future Issues

The 'Cost of Living Crisis' continues to dominate headlines and continues to impact on the cost of supplies and services.

Current issues

The reserves balances as at 1st April 2024 are £10,326k as shown in the table above, and of this balance c£2,054k is ring-fenced. As noted on page 2, the forecast positive variance at Q1 of £137.9k will reduce the contribution required from the Transitional Reserve to support the budget.

Potential Reserve Balances	0.0	0.0	0.0	0.0	128.7	0.0	0.0

In addition to the £2,645k of unspent DFG grant brought forward 1st April 2024, the 2024/25 allocation of £1,265k has been confirmed, giving total DFG resources of £3,911k. For the purpose of the above table, future utilisation plans recognise an estimated profile of DFG grants received to date only, and do not include estimation of any future receipts from the Better Care Fund. The Council's approved Medium Term Capital Strategy assumes DFG grant receipts in the sum of £1,000k per year over the plan period and will be updated in due course to reflect the recent confirmation that the DFG allocation for the Council for 2024/25 is £1,265k.

The council has been granted a share of the UK Shared Prosperity Funds between 2022/23 – 2025/26, over 3 years. As at the 1st April 2024 the brought forward balances on the UKSPF for both Revenue and Capital were £30k and £21k respectively. There have been funds received at the start of the year of which have been receipted amounting to £866k on Revenue and £815.3k on Capital. The table above shows how this will be used during 2024/25 as all funding needs to be spent by 31st March 2025.

Adjust - Impact of the Payaward	(118)
Additional Leave	25
Total Staff Savings	57
Original Savings Target	225
Staff Variance	(168)

The net employee underspend at Q1 is £150k excluding the pay award. Once the pay award (Estimated at £118k) is factored in, this reduces down to £32k. Savings relating to additional leave of £25k makes the total staff saving of £57k. The target for the year is £225k leaving an estimated shortfall of £168k at Q1.

Whilst a saving against budget on salaries is beneficial from a financial perspective, there is a risk that this will have a negative impact on the workforce as workloads increase to cover the vacant posts.

Treasury Management & Cash Flow Monitoring

At the end of June the bank balances were £13.2m. This is lower than in previous years due to funds being used for internal borrowing for capital schemes and all residual Covid monies being returned to Government in the previous year.

During the period the Council has also held funding for the Household Support Scheme (£0.6m), the majority of this funding will be distributed in Q2.

Given the increase to Bank Rate over the last two years, and the temporary cash balances available to invest, the Council has continued to take a more proactive approach to managing its cash balances in 2024/25 to maximise interest receivable, relative to its budget estimate, and to mitigate the impact of rising costs as far as possible, a result of historically high inflation pressures.

The Bank of England voted to increase the 'Bank Rate' for the final time on 3rd August 2023, increasing from 5.0% to 5.25%. The Monetary Policy Committee (MPC) then decreased the bank rate in August 2024 by 0.25% back down to 5.0%. It is anticipated that the bank rate will decrease further in 2024. The full impact of the fall in rates is not likely to be felt until later in Q2 onwards.

The Council's strategy remains to retain a significant portion of its balances as liquid funds, to ensure it can respond promptly when required to meet its commitments as they fall due (revenue and capital expenditure).

Responsible Section/Team	Financial Services	Page	25
Responsible Author	Finance Manager	Produced	30/06/2023
Dates covered in this review	2023/24 Monitoring	Next review	30/09/2023

Instant access arrangements typically return lower interest rates despite the recent increase in bank rate. In some cases there has been no uplift to interest rates on offer to the Council from its existing relationships. Officers are working to generate the highest level of interest income possible whilst maintaining the ability to access funds when needed.

As per the commentary above, the Council is taking a more proactive approach to fixed and longer-term investments for a smaller proportion of its surplus balances. In accordance with the approved Treasury Management Strategy, these deposits will be placed with high quality Counterparties eg Central Government, Other Local Authorities. The strategy is considered prudent in the context of CIPFA's Prudential Code which prioritises Security and Liquidity over Yield (SLY).

At 30th June 2024, the Council's portfolio mix consists of £3m in an LCC call account, £2m in a Lloyds instant access account, £7.5m on deposit with the DMO for varying periods up to 3 months and liquid funds of £0.7m.

Interest Forecast	Budget 2024/25	Forecast 2024/25	Variance Fav/(Adv)	Change Fav/(Adv)

Interest payable (PWLB)	(109.0)	(109.0)	0.0	0.0
Other interest payable	(1.0)	(1.0)	0.0	0.0
Misc Interest income	0.0	0.0	0.0	0.0
Bank Interest income	120.0	300.0	180.0	180.0
Net Interest	10.0	190.0	180.0	180.0

The average effective interest rate at the end of Q1 was 4.89%.

Interest Paid/Received

The budget for interest in 2024/25 is a net <u>income</u> of £3k, current estimates are that the outturn will exceed budget. The current estimated interest income is based on falling interest rates and reduced levels of available cash.

Dates covered in this review	2023/24 Monitoring	Next review	30/09/2023

Economic Outlook (Released July 2024)

The Consumer Prices Index rose by 2.6% in the 12 months to July 2024, up from just a 0.1% increase in June. The largest upward contributions to the annual CPIH inflation rate in July 2024 came from Restaurants and Hotels, the largest decrease came from clothing and footwear where prices have actually fallen. Core CPIH (excluding energy, food, alcohol and tobacco) rose by 4.2% in the 12 months to June 2024, the same rate as in May; the CPIH goods annual rate fell from negative 1.3% to negative 1.4%, while the CPIH services annual rate rose from 5.9% to 6.0%.

Average petrol prices stood at 144.2 pence per litre in July 2024, compared with 143.5 pence per litre a year earlier. The average price of diesel in July 2024 was 150.16 pence per litre. The 12-month rate for motor fuels and lubricants was 3.5%, down from 6.8% a year previous, which was down from the highest since before the start of the constructed historical series in January 1989 in June 2022.

These increases are likely to impact on the original forward planning assumptions approved when setting the budget for 2025/26 and Medium Term Financial Strategy (MTFS), and particularly budgets for utility supplies, fuel for fleet vehicles, any contractual obligations linked to CPI uplifts and potentially future pay award for Council staff.

Work continues to assess and review the MTFS as part of the closure of the Councils accounts for 2024/25.

Borrowing

The Council has an identified a 'prudential' borrowing need to finance its Capital expenditure plans, in the sum of £6.2m, over the plan period to 2024/25 - 2026/27.

The increase to Bank Rate during the last financial year has affected the borrowing rates on offer from PWLB.

Given the updated cashflow forecast above, the Council's Capital plans, and in accordance with the approved Treasury Management Strategy, the Council continues to assess its borrowing options and timing of any external borrowing, given the delay to the repayment of sums to Government, and the positive impact on its working capital.

Link also provide their view of 25 year borrowing rates from the Public Works Loan Board (PWLB). This forecast is based on a concessionary rate reduction to the standard rate for new loans, known as the 'Certainty Rate'. This discount is currently equal to a 20 basis point reduction to the standard rate. For larity, the above table includes the Certainty Rate.

The Council completed the annual application for access to the Certainty rate for 2025/26 to support its Capital borrowing plans on the most favourable terms available.

Treasury Management Practices (TMPs) and Prudential Indicators

The Council's Treasury Management Strategy Statement 2024/25 was approved by Council on 28th February 2024.

Prudential Indicators

The updated Prudential Indicators – taking into account the Q1 Monitoring position are shown below.

Sundry Debts Monitoring

Invoices raised in the year, to the end of Q1 totalled £1,745k. As at June 2024, £521k (30%) of new debts raised in the year were considered outstanding or overdue giving a derived collection rate of 70%.

It should be noted that the high volume of Net Debts raised in April relates to the annual charges for Trade waste and rental of most industrial units.

Responsible Section/Team	Financial Services	Page	29
Responsible Author	Finance Manager	Produced	30/06/2023
Dates covered in this review	2023/24 Monitoring	Next review	30/09/2023

Doubtful debts

The debtor days in Q1, based on a rolling 12 month average has increased from 69 days to 80 days, for collection of sums due. This figure matches the target average of 80 days.

The Council has set aside sufficient sums in the event of non-recovery of 'aged' debt. The Council will consider any decision to write-off sums in due course following an analysis of recovery attempts eg Debtor has 'gone away' or sums are considered uneconomical to pursue further. Any such decision wil be reported to Cabinet in accordance with the Council's Constitution.

The Council had increased the level of cover for bad and doubtful debts by £300k during 2023/24, the Council has a provision of c83% for debts its considered to be at risk of going unpaid (impairment) and c50% for total debt issued and considered overdue.

Given the subsequent collection performance of Q4 debts into 2024/25, the current level of provision is therefore adequate but will be maintained under review throughout 2024/25, given the ongoing, challenging economic conditions for individuals and businesses.

The general impairment provision carried forward at 31 March 2024 is at £668k. An exercise is underway involving finance and legal to streamline debt recovery processes.

Of the sundry debts below, £35k are held on the Local Land Charges Register. The debts below exclude the Rossendale Leisure Trust Debt which stood at £1,285m as at 30th June 2024.

Capital Programme

The Capital Programme for 2024/25 approved in February 2024 was £11,409k This includes:

- £5,375k for the Capital Regeneration Programme
- £1,066k for projects relating to the UK Shared Prosperity Fund
- £740k for the replacement of Vehicles and Equipment
- £739k for the Food Waste Collection programme
- £627k for projects included in the Carbon Reduction Fund
- A provisional estimate of £1,000k for DFGs.

A further £7,166k (£2,529k DFG's) of slippage has been included in the year, relating to projects which were ongoing at the end of 2023/24 and prior year allocations not yet spent.

Council have approved an increase with regards to the following

 £240k increase relating to the Whitaker Park improvements project, with additional funding from Lancashire Environmental Fund, FCC Community Action fund and Valencia to cover the additional spend.

Responsible Section/Team	Financial Services	Page	31
Responsible Author	Finance Manager	Produced	30/06/2023
Dates covered in this review	2023/24 Monitoring	Next review	30/09/2023

The original 2024/25 estimate for DFGs included in the programme was £1,000k. The actual grant received in the year is £1,265k, so an additional £265k has been added to the base programme.

Items of estimated slippage and the associated funding arrangements are shown in the table below.

The revised Capital Programme over the life of the MTFS will be amended to reflect the timing variation as outlined above and finalisation of slippage adjustments

Financing the Capital Programme

The Useable Capital Receipts Reserve holds the balance of the funds generated by the sale of Council assets; the estimated balance brought forward at 1st April 2024 is £2,506k. This represents the most effective method of financing the planned Capital spend in 2024/25. This figure is still subject to any effects of post-audit amendments to the 2018/19 accounts and their impact on subsequent years.

The total grant income expected for the approved capital programme is £8,812k (including DFGs). Current funding for the slippage carried forward into the 2024/25 capital programme consists of a mixture of resources, namely grants, capital receipts and (internal) borrowing. The most effective method of funding the Council's capital programme will be determined by the end of the financial year.

Current issues

The cost of specialised Fleet vehicles continues to rise, putting increased pressure on the budget. It should be noted however that recent vehicle procurements have managed to achieve a saving against budget. This is only likely to be achievable on LGV's and not HGV's.

Collection rates for Council Tax are recovering but are not yet back at pre-pandemic levels with collection performance for 2024/25 slightly below that of 2021/22 (-1.19%). This remains an area of focus into 2024/25 given the 'Cost of Living Crisis' and potential impact on future collection.

For Business Rates however, the situation is harder to gauge as collection rates were distorted in 2022/23 by the Covid relief the Government distributed. 2023/24 were also distorted by the transitional reliefs given to businesses due to the Business Rates revaluation, which kicked in from April 2023. As at end June 2024 the collection rates in 2024/25 are broadly in line with previous years which is positive.

Council Tax Collection Fund

At the time of this report the estimated surplus on the Council Tax collection fund is forecast at £2,171k. This includes a £500k contribution for doubtful debts. It must be noted, we are only a quarter of the way through the year and based on the current economic climate this position could change significantly as the year progresses. This year RBC's share of the Council Tax is 13.56%, equating to £294k of the forecast surplus.

Council Tax Forecast 2024/25	Q1 £'000
Council Tax Collectable (after Discounts & Exemptions)	50,996
less Doubtful Debt Provision	(500)
	50,496

Local retention of Business Rates (NNDR)

Under the business rates scheme, variances from the original budgets fall into two categories – those arising from changes to the collection fund and those arising from grants and levies received or charged to the General Fund.

Business Rates Collection Fund 2024/25		NNDR1	Q1
(50% Pool)		£000	£000
Net Liability Due		14,318	14,275
Use of Appeals Provision		0	0 9
Less Cost of Collection Allowance		(97)	(97)
Less Doubtful Debt Provision		(500)	(300)
Less Appeals Provision		(700)	(500)
Less Renewables 100% to RBC		(279)	(279)
Net NNDR due	Α	12,742	13,099
Transitional reliefs	В	878	762
Less Precepts		(13,620)	(13,620)
Cash Surplus/(Deficit)	С	(0)	241
RBC Share = C x 40%	D	(0)	96
Central Government share 50%			120
LCC and Fire share 10%			24

collection fund is now predicting a surpplus of £241k in 2024/25, the Council retains a local share of any surplus or deficit arising at vear-end from activity on the fund, in the sum of 40%, thus the Council's share of the surplus would be £96k. This is largely due to the exercise rebasing took place in 2023/24. As a result of this, it is anticipated there will be that increase in appeals. Whilst

business

rates

The

there is an appeals provision within the Collection fund to cover the cash refund due on any appeals, the rateable value reduction of any successful valuation appeals will adversely affect the Council's in-year cashflow, because although the net liability due from the businesses has decreased, under existing legislation, the Council is required to make good its payments to major preceptors as originally assumed, despite a reduction in Collection Fund income.

The Council, is part of the Lancashire Business Rates Pool, each year the Council is subject to a levy payment of 50% of calculated business rates growth, above its baseline funding level, as determined annually in the Local Government Finance Settlement. Membership of the Pool restricts this levy to 10% (of the 50% levy) and allows the Council to hold the balance as

received time levy to reve (or time deve	101) a.			
DDC Compared Found / Docaling spains		NNDR1	Q1	'retained

Levy payable as Pool member 10% of above	G	(125)	(94)	included
Retained Levy through Pool membership		1,122	844	of an est

retained levy' thus reducing the total value of sums paid over to central Government, to apply locally. Therefore in addition to the anticipated surplus the Council will generate as above, a pooling gain is estimated of £844k. The February 2024 MTFS included a contribution of an estimated pooling

gain of £500k, whilst we are still early in the year if the current forecast materialises it will result in a £344k surplus against that income budget.

Central government also gives authorities Section 31 grants to cover small business reliefs and other government-backed schemes. In the NNDR1 budget submission in January 2024 the estimate for those grants totalled £2,942k.

Glossary

Accrual

An adjustment at year-end to charge costs or income due in the old year, regardless of whether the cash has been paid or received. Accounts are prepared on an accruals basis in order to match the income for each financial year with the costs attributable to the same time period.

Capital expenditure

Spending on the acquisition or maintenance of assets either directly by the Council or indirectly in the form of grants to other persons or bodies. Expenditure that does not fall within the definition must be charged to a revenue account.

Capital Grants Received in Advance

Grants received in cash during the year, but not spent or committed, are held on the Balance Sheet in the Short-term Liabilities area as Capital Grants Received in Advance, acknowledging the potential requirement to pay these grants back should the related project not go ahead or underspend.

Capital Receipts

Proceeds from the sale of fixed assets, such as land or buildings, or the repayment of capital grants or advances. These funds form part of the Council's Useable Reserves, though they are ring-fenced for capital projects rather than revenue costs.

Cash & Cash Equivalents

Cash deposits are those which provide instant access to the funds without significant penalty or loss of interest. For the Council this is the balance on the NatWest accounts and two other instant access accounts with Lloyds and Handelsbanken. This is in comparison to short- and long-term *Investments* in which funds are untouchable during the life of the deposit.

Collection Fund

Rossendale Borough council collects funds on behalf of other precepting bodies, Lancashire County Council, Fire and Police as well as central government and Whitworth Town Council from domestic and commercial properties in the borough. These amounts are formally ring fenced in the Collection Fund and then distributed amongst the precepting bodies in line with their demands as set in the February budget setting meeting. At the end of the year each precepting body has their share of the arrears, the doubtful debt provision or appeals provision and the accumulated surplus or deficit. Rossendale Borough Council accounts for its own share, but holds the other preceptors shares separately on an agency basis. Hence, within the Council Tax and Business Rates monitoring members will see the overall position and the RBC share clearly identified.

Compulsory Purchase Order (CPO)

Compulsory acquisition of key properties in accordance with the Council's regeneration agenda. Compensation must be paid to the property owners, but where they cannot be traced the Council must deposit the funds with the courts for a minimum of 12 years.

Consumer Price Index (CPI)

The consumer price index (CPI) is a measure estimating the average price of consumer goods and services purchased by households. It is a price index determined by measuring the price of a standard group of goods meant to represent the typical market basket of a typical urban consumer and how this changed in the previous 12 months.

Earmarked Reserves

Cash-backed funds identified to fund specific projects in the future.

Responsible Section/Team	Financial Services	Page	39
Responsible Author	Finance Manager	Produced	30/06/2023
Dates covered in this review	2023/24 Monitoring	Next review	30/09/2023

Full Time Equivalent (FTE)

Each full-time post within the Council works 37 hours per week. Part-time posts are expressed in relation to this, for example a post working 4 days a week would be 0.8FTE.

General Fund

The main revenue fund of the Council.

Grants Unapplied

Unlike Capital Grants Received in Advance, there is no requirement to repayment of these grants. The unspent balance will be released into capital or revenue in the coming years as projects come online. These funds form part of the Council's Useable Reserves.

Homes and Communities Agency (HCA)

The Homes and Communities Agency (HCA) is the non-departmental public body which helps to fund new affordable housing in England. It was established by the Housing and Regeneration Act 2008 as one of the successor bodies to the Housing Corporation, and became operational on 1 December 2008. In 2012 the HCA approved the East Lancashire Empty Homes Scheme.

Investments

The Council invests surplus cash in short- and long-term deposits in accordance with the Treasury Management Strategy and Practices revised in February each year. In this context short-term includes anything up to 365 days, and long-term is for more than one year. Funds deposited in such investments are not accessible until the end of the agreed terms.

Link Asset Services (formerly Capita & Sector)

Link Asset Services (formerly Capita & Sector) is the company which provides the Council with Treasury Management advice, including daily market reports and predictions, credit rating updates, interest rate forecasts and annual reviews of our strategy and practices ahead of the February reports to Full Council.

Medium Term Financial Strategy (MTFS)

The Council's financial planning document for the foreseeable future.

Minimum Revenue Provision (MRP)

The minimum amount which must be charged to the Council's revenue account each year and set aside as provision for credit liabilities, as required by the Local Government and Housing Act 1989.

Ministry of Housing, Communities and Local Government (MHCLG)

The former Department of Communities and Local Government (DCLG)has been redesignated as the Ministry of Housing, Communities and Local Government, or MHCLG.

National non-domestic rates - now Business Rates (NNDR)

National non-domestic rates for commercial premises are set annually by the government and collected by all local authorities. The localisation of business rates in April 2013 meant that the National pool no longer exists, but the acronym NNDR is still widely used in local government circles.

Provision

Cash 'put aside' for expenditure on an intended project which has not commenced or is not complete at the yearend, but which has been contractually committed.

Provisional

Best forecast given current knowledge.

Public Works Loans Board (PWLB)

The PWLB is a central government statutory body which lends funds to local authorities with advantageous interest rates. Interest rates are published daily and local authorities provide the PWLB with annual estimates of cash requirements in return for certainty on the availability of funds and the interest rates being charged.

Reserve

Amounts included in one financial year's accounts to provide for payment for goods or services, whether revenue or capital, in a future financial year.

Revenue account

An account that records an authority's day-to-day expenditure and income on such items as salaries and wages and other running costs of services.

Section 106 Agreement

Planning agreement whereby developers make a contribution towards specific projects linked to their development as a condition of planning application approval. Deposits may be for revenue or capital schemes, but application of the funds are dependent on firstly the developer, and then the Council, pursuing the projects specified within the agreement.
