Community Impact Assessment Form

Name of Strategy/Policy:	Proposed replacement swimming pool in Haslingden	
Officer Name(s):	Gina Fletcher /Anita Hall	
Job Title & Location:	Service Development Officer- Communities/ Service Assurance Manager – Customer Services	
Department/Service Area:	Place Directorate	
Telephone & E-mail Contact:	01706 252 458 ginafletcher@rossendalebc.gov.uk	
Date Assessment:	Commenced: 04/08/2009	Completed:

1. Impact Assessment – Policy and Target Outcomes

- a) Summarise the main aims/objectives of the strategy, policy, procedure, project or decision (refer to **“Notes for Guidance”** for details).

Rossendale Borough Council is currently looking at Leisure provision throughout the Borough due to increasing financial pressure and the need to have quality sustainable leisure provision for the future. A number of options for the future delivery and of leisure are being explored.

This Impact Assessment considers the proposal to build a new swimming pool in Haslingden which would replace the current facility and improve swimming facilities in the Borough.

Haslingden Pool is beyond its useful life and needs to be replaced. A site has provisionally been chosen, for the siting of the new swimming pool, next to Haslingden Lifestyle Centre. This decision was made based on the information from the 2006 review of leisure and subsequent white paper and is supported by the current facilities and options appraisal which has been carried out by Knight Kavannah & Page (KKP). This location, alongside an existing leisure facility makes sense from a management and operational cost perspective. There will, however, need to be careful consideration of the location of the pool within the site and the additional parking requirements, both from an operational and community impact perspective.

A Review Panel including Councillors, Swimming Forum Representatives and Rossendale Leisure Trust representatives have developed a broad specification for the new pool. (appendix 1).

Name of Strategy /Policy, Service or Function:	<i>Proposed replacement swimming pool in Haslingden.</i>	Page:	Page 2 of 20
Author:	<i>Gina Fletcher</i>	Version:	<i>2</i>
Date last edited:	<i>30/10/2009</i>	Status:	<i>draft for discussion</i>

b) Is the policy or decision under review (please tick)

New/proposed Modified/adapted Existing

c) Who will be the main beneficiaries, targets or users of this strategy, policy, project, procedure or decision? Please specify in box below:

- Customers/citizens of the district
- Targeted/specific groups of customers/citizens (indicate below in [d]).
- Elected Members/Councillors
- Internal colleagues/customers or other public authorities e.g. government agencies
- Community Groups/voluntary sector groups or campaign/interest groups
- Staff/employees (in their contractual position) and/or potential employees/trainees.
- Any other stakeholder e.g. trade unions, contractors, suppliers, district partners, public agencies (not directly under Council control), intermediaries representing interest groups e.g. tenants, developers, legal agencies or third parties.

Main beneficiaries:

Customers/citizens of the district
Community Groups/voluntary sector groups or campaign/interest groups
Rossendale Leisure Trust, including staff and employees

d) Please detail below specific equality groups – for example disabled citizens, elderly or infirm/female or non-traditional users who are seen as intended beneficiaries from this policy/strategy/project/procedure (see “**Notes for Guidance**”).

Name of Strategy /Policy, Service or Function:	<i>Proposed replacement swimming pool in Haslingden.</i>	Page:	Page 3 of 20
Author:	<i>Gina Fletcher</i>	Version:	<i>2</i>
Date last edited:	<i>30/10/2009</i>	Status:	<i>draft for discussion</i>

Key equality groups as intended beneficiaries (where appropriate):

Older people
Women
Children and young people (family sessions, various school groups)
GP referrals
Adults with learning / physical disabilities

In addition the project would impact on the following interest groups:

Sub Aqua
Swimming clubs
Health suite users

And general users of the facility

e) To assist with the assessment you may need to consider collecting the following information, before completing the table in Section 2:

- NATIONAL DATA e.g. surveys, reports, statistics, etc which point up specific areas/issues.
- LOCAL DATA e.g. demographics, service mapping studies & relevant research.
- MANAGEMENT INFO e.g. data collected for operational/financial or other purposes.
- MONITORING DATA e.g. information already available or collected. For example: disability type, age band, gender, location. (ref. existing LPSIs).
- CONSULTATION/CONTACT DATA e.g. user group feedback, representations, specific consultation events etc.
- CUSTOMER COMPLAINT/FEEDBACK e.g. results of investigations, inquiries, elected member cases, normal complaints/compliments etc.
- Views of LSP Officers, independent externals, contractors/suppliers, partners and academia (if relevant).
- OTHER e.g. frontline employee feedback, other research, experiences of other agencies/local authorities, councillors mailbags/surgeries.

Please detail in the box below, the information you have considered to make this decision/recommendation regarding the communities affected by this.

National Data: Active People survey, Sport England swimming pool design guide

Local Data: Leisure Review 2009 conducted by KKP, Leisure Review 2006 conducted by PMP, Leisure White Paper 2007,, Census Data, Bus routes and travel times and Rossendale Borough Councils Core Strategy.

Management and monitoring information

Swimming Pool visits report, car park usage current and projected, projected price per use, existing groups and individual use at Haslingden Pool

Name of Strategy /Policy, Service or Function:	<i>Proposed replacement swimming pool in Haslingden.</i>	Page:	Page 4 of 20
Author:	<i>Gina Fletcher</i>	Version:	<i>2</i>
Date last edited:	<i>30/10/2009</i>	Status:	<i>draft for discussion</i>

Consultation / User Group Feedback

User group feedback on specific issues including car parking, changing facilities, and disabled user requirements, information from February 2009 consultation sessions on the leisure proposals, Culture in Rossendale Survey, and consultation with planning officers.

f) Is further consultation, data collection or research still required?

Yes No

(If yes then complete Action Plan)

Key Actions (note responsible officer(s)):

The community impact assessment has been carried out in accordance with the current information available.

A proposal is being developed in more detail regarding the location of the pool and additional parking within the site. This will inform this community impact assessment and enable consultation with residents adjacent to the site, existing Haslingden Sports Centre Users, Rossendale Leisure Trust staff and associated sports clubs including the Tennis Club.

The programming and pricing of a new swimming pool has the potential to impact on existing user groups. Further work would be required in conjunction with the operator to consider the community impact of the service programme and operation of the facility. (A comparison of current services is included in the appendix).

Research will be ongoing in relation to the proposal as the specification is developed in more detail and the community impact assessment will be updated accordingly.

2. Impact – Evidence

Using the table below please tick whether you have evidence that the policy/strategy/decision has a negative, positive or neutral impact **from an equalities perspective** on any of the equality groups listed below. **Throughout this document please also give consideration to the wider community cohesion impacts within and between the groups identified.**

		Positive Impact – it could benefit	Negative Impact – it could disadvantage	Reason	Neutral Impact (Neither)
Gender	Women				√
	Men				√
Race (Ethnicity or Nationality)	Asian or Asian British people				√
	Black or black British people				√
	Chinese or other ethnic people				√
	Irish people				√
	White people				√
	Chinese people				√
	Other minority communities not listed above (please state)				√

3. Impact – Nature/Type

- a) Could you further improve the strategy, project, policy, procedure or decision's positive or neutral impact? If "Yes", this should be detailed in the Action Plan.

YES NO

- b) You need to think about how you can mitigate any adverse or negative impact(s) of the proposal, or how you might use the policy, strategy, project, procedure or decision to promote a positive impact. You must consider whether you have identified that this proposal has a:

High Impact: that the policy, project or decision will have a high, negative impact i.e. that it may be or is unlawfully discriminating against some groups, you will have to take immediate action to mitigate this.

OR:

Lower Impact: the policy, project or decision will have a negative or adverse impact (that may not be lawful). You will also need to consider what changes you could make to remove this impact.

If you have identified adverse impact you must determine whether you will recommend that the Council should:

- Change the policy/decision, stating what the changes should be
- Revise the policy/decision, stating the revisions
- Consult further if you feel that you do not have enough information.

Actions arising from the impact assessment should form part of the Service Planning Process.

Key Actions:

Changing facilities design: The specification of the changing facilities needs to take into account the need for family and group change as well as the needs of disabled users. Communities / Estates Team

Date last edited:	<i>30/10/2009</i>	Status:	<i>draft for discussion</i>

4. Impact Assessment - Summary

Key Findings

Please list the major outcomes/results/findings of this assessment in relation to equality which require action by the Council detailing these in the Action Plan at the back at this document. If no specific actions have been identified please detail your key findings below:

Key Findings:

Travel Issues: One of the key groups affected by the proposed replacement of the current Haslingden Swimming Pool on East Bank Avenue is Haslingden CP School. To access the current pool, pupils need only be escorted across East Bank Avenue from the School to the Pool.

The site of the proposed pool at Haslingden Sports Centre is 0.7 miles from the school and so pupils would need either to walk, along Helmshore Road or to be bussed to the pool.

Assuming a walking pace of 2mph for Primary School pupils, the journey would take about 20 minutes each way to complete on foot.

Helmshore Primary School is 0.5 miles from Haslingden Sports Centre
Broadway Primary School is 0.5 miles from Haslingden Sports Centre
St Veronicas Primary School is 0.5 Miles from Haslingden Sports Centre
These schools would have a journey of around 15 minutes each way of foot.

There is a Rossendale Transport bus service, no 244, running along Helmshore Road and a bus stop is available within 100 yards of the school and sports centre. The service runs at 30 minute intervals in both directions during school hours. The journey would take less than 5 minutes although there are a number of stops en route which could influence travelling time. Non-stop, the journey by vehicle takes about 2 minutes.

Copies of the current bus timetables for service no. 244 are attached for reference.

Other users who access the current pool on foot would also need either to walk to the sports centre directly or use the 244 bus service along Helmshore Road. This service runs every day at 30 minute intervals Monday to Saturday and hourly on Sunday.

Pool users who travel by bus to the current pool, other than by the 244 service, would need to change to the 244 in Haslingden town centre.

Name of Strategy /Policy, Service or Function:	<i>Proposed replacement swimming pool in Haslingden.</i>	Page:	Page 10 of 20
Author:	<i>Gina Fletcher</i>	Version:	<i>2</i>
Date last edited:	<i>30/10/2009</i>	Status:	<i>draft for discussion</i>

The co-location of the pool and the fitness suite on the same site could have a positive impact on anyone who currently uses both facilities and has to travel between them.

Residents in close proximity to new pool site: The impact of an extension to the current Haslingden Lifestyle Centre on residents to either side of the site. This would range from the aesthetic of the building, any impact it might have on their views to increased traffic flow to and from the site. Residents need to be informed and engaged before any planning application could be submitted for the site. The required increase of car parking could also impact on safety for residents and users of the site. Consideration should be given to the following:

- Adequately marked out spaces (including numbers if possible)
- Lighting
- CCTV Cameras
- Perimeter security – height/type (i.e. fencing/trees/shrubs etc.)
- Access and egress – both vehicular and pedestrian
- Opportunity for natural surveillance

Tennis Club Users – There is currently a private tennis club located on the site that has 2 courts and a clubhouse. The impact on the Tennis Club would vary dependant on the location of the new pool on the site. Consultation needs to take place with the Tennis Club regarding the proposals once we have finalised the proposed location on the site.

Parking – It has already been highlighted that the current parking facilities at Haslingden Lifestyle Centre are inadequate, 27 new temporary spaces have been created at the site, However, the potential increase in users resulting from the development of the pool mean the required level of car parking provision clearly needs to be looked at.

The development of a new pool at the site may offer the opportunity to rationalise the existing car parking provision in order to provide more spaces on a similar footprint as well as increase the amount of parking space available overall.

Provision also needs to be considered to the buses/coaches that transport school children to the swimming pool for lessons and an adequate turning circle, for these vehicles, be provided.

Sub Aqua Club – Rossendale Sub Aqua club currently use Haslingden Swimming Pool for 12 weeks every year. They provide an hour long session every Tuesday evening during this period. Haslingden Swimming Pool and Marl Pits Swimming Pool both have a depth of 2.1 meters and Whitworth Swimming Pool has a depth of 2.13 meters.

The Sub Aqua club have stated that when a new pool is built consideration should be

Name of Strategy /Policy, Service or Function:	<i>Proposed replacement swimming pool in Haslingden.</i>	Page:	Page 11 of 20
Author:	<i>Gina Fletcher</i>	Version:	<i>2</i>
Date last edited:	<i>30/10/2009</i>	Status:	<i>draft for discussion</i>

given to the depth of the pool, this has been taken into account in the option put forward by the Pool Review Panel.

Cost implications/feasibility and value for money need to be considered – As part of the ongoing project development the business case and total project cost are being developed. This will inform the recommendations around a new pool,

Possible impact on other facilities in and around the borough – Whilst a consideration needs to be given in relation to brand loyalty, it cannot be ignored that once faced with a brand new state of the art swimming pool, users of older facilities may chose to change their allegiance and start using the new pool.

The proposed site of the new pool is next to Haslingden Lifestyle centre which has gym facilities, badminton and squash courts and various keep fit classes. This will provide a comprehensive lifestyle/well being package on a single site which may encourage new users but may also lead to existing users of other facilities changing venue.

Consultation as part of the Leisure and Culture Survey (2009) indicated that Marl Pits is considered to be the most important leisure facility owned by the Council and in general was rated as a good facility. In addition swimming is the most popular leisure activity. This could be seen to indicate that there would be ongoing support for the other swimming facilities in the borough.

Lifespan of current Haslingden Pool: Haslingden Pool is beyond it's expected life. The current pool was assessed 12 months ago by a surveyor. However, it may need further assessment and an emergency plan in place in case of a failure at the current facility before the completion of a new pool. The current specification for the proposed pool would increase the size of pool and available water space in the Borough.

5. Impact Assessment – Further Action

Please give the details of the monitoring/evaluation/review process that has/will be set up to check the successful implementation of the policy, project, strategy or decision including improved outcomes/impact and identify the review date.

Evaluation/ monitoring/ review process:

The impact assessment will be updated as issues are raised by Elected Members, stakeholders and members of the public.

Name of Strategy /Policy, Service or Function:	<i>Proposed replacement swimming pool in Haslingden.</i>	Page:	Page 12 of 20
Author:	<i>Gina Fletcher</i>	Version:	<i>2</i>
Date last edited:	<i>30/10/2009</i>	Status:	<i>draft for discussion</i>

The decision of the Council in February 2010 in relation to Leisure Provision in the Borough will impact on the implementation of the action plan.

Monitoring of implementation will take place at the Programme Board and through Overview and Scrutiny if appropriate.

Evaluation will continue as part of the Project Planning. If appropriate the Pool Review Panel will continue to inform the progress of the Pool Project and any community impact of the proposals.

Review Date: Ongoing

Date last edited:	<i>30/10/2009</i>	Status:	<i>draft for discussion</i>

6. IMPACT ASSESSMENT ACTION PLAN

Please list below any recommendations for action that you plan to take as a result of this impact assessment (refer to Sections 3 & 4).

Issue	Action required	Lead officer	Timescale	Resource implications	Comments
	Gather information on Bus Routes to Haslingden Pool from various locations across the Borough	Anita Hall	November 2009	N/A	
	Research possibilities of increased bus provision	Gina Fletcher (tbc)	March 2010	N/A	To be reviewed after Full Council Decision – Feb 2010
Possible transport issues for Haslingden County Primary school pupils. Other school transport issues	Look at travel times from old site & other areas of the Borough	Anita Hall	November 2009	N/A	Timescale indicative only. Further consultation with Haslingden School may be required after Cabinet meeting 17 th December 2009. (See Below)
	Talk to Haslingden School to find out how they would get	Gina Fletcher	February 2010	N/A	Timescale indicative only.

Name of Strategy /Policy, Service or Function:	<i>Proposed replacement swimming pool in Haslingden.</i>	Page:	Page 14 of 20
Author:	<i>Gina Fletcher</i>	Version:	<i>2</i>
Date last edited:	<i>30/10/2009</i>	Status:	<i>draft for discussion</i>

	to the new site				
Adequate parking	RLT to provide information on current parking requirements and estimated	Diane Scott - RLT	February 2010	N/A	Timescale indicative only. Information on car parking requirements will be supported by work to look at the placement of the facility and car parking on the site which is ongoing.
Tennis Club	Meeting with Tennis Club regarding proposed pool	Gina Fletcher / Mike Forster	February 2010	N/A	Timescale is indicative only. Consultation with the Tennis Club to take place once the location of the pool on the site has been finalised, allowing implications for the club to be established.
Residents in close proximity to new pool site & at the current pool site	Meeting with residents to discuss the proposed pool (supported by alternative methods of communication e.g. feedback forms)	Gina Fletcher	March 2010	To be established	Timescale indicative only. Consultation with residents to take place once the proposed location of the pool on the site has been finalised
	Talk to Community Safety manager regarding impact on community	Gina Fletcher / Trish Ellins	November 2010	N/A
