Subject: Ewood Bridge. Boxing and must event

Danny. I have received concerns from some of my constituents regarding this proposed event especially in light of the publicity in the Lancs Telegraph and following the recent arson attack to the existing building on the previous Stand football ground.

This is a previous site where gypsies have illegally camped and necessitated boulders at the entrance to prevent re-entry. If this site is used for a one off event and the blockages removed it is wide open for further gypsy intrusion My constituents are concerned about noise pollution, crowds, drunkenness, antisocial behaviour, parking, speeding (on a road where this is already notorious) litter and indeed any further arson or other attacks which may affect their properties. These events are well known for attracting undesirable people and illegal activity taking place, unregulated boxing and betting. I and my constituents do not believe crowds of 1000 people or more can be adequately policed especially as the police constantly tell us they have inadequate police for front line duties as it is. I request on behalf of my constituents that this application be refused

Regards

Gladys Sandiford
Rossendale Borough Councillor
Greenfield Ward
Haslingden
