

ROSSENDALE
LICENSING UNIT
RECEIVED

7.5 MAY 2012

Ewood Bridge
Rossendale
Lancs.

Dear Miss Chadwick, 23. May 2012.

Ref: Entertainment Licence
for Haslingden Football Ground
Ewood Bridge.

I wish to object to the above
licence being granted on the
following grounds.

1. As this is a small village
and in close proximity to the
football ground, the noise
pollution from this event would
be evident throughout the
whole village affecting all
who live here.
2. As public transport is limited,

2.
and buses finish turning early evening and none at all on a Sunday, Many people attending this event would most likely travel by car and as there is limited parking at the football ground would look to park in the village. The parking for local residents is currently a problem and would become very severe with the number of people attending the event.

3. We also have concerns regarding the building on this land, as at present it seems to invite vandals and thus the building itself

3.
would need much work if it was not to be a safety issue. Also with the consumption of alcohol especially over such a long period some people may become oblivious to the close proximity of the river and the hazard this could become with people falling in the river.

4- The police who would perhaps need to be involved in this event have at present enough to concern themselves without the added pressure this event would bring.

5- Would the people responsible for this event ensure all pollution is cleared away.

4.

With the above points in mind we hope you reject this proposal and hope a more suitable site can be found.

Yours Sincerely
