

O&S – Whitworth Leisure Centre

- The recent purchase of a new inflatable is bringing in extra revenue
- Swimming – schools have been making enquiries for the coming year 2016/17
- Swimming lessons are continuing to do well
- With the purchase of several items of gym equipment we are now finding that the gym isn't large enough for future growth.
- Biomass – the original plan to revert to a Biomass Boiler was dropped as the long term projections did not appear to be cost effective. This has now proved to be a wise decision as the government have now withdrawn funds for Biomass projects.
