

O&S – Riverside July 2016

Notes

- New and improved till system has been installed and is proving to be an enormous help at busy times.
- Our new Bar Coffee maker is very popular.
- Solar Panels were installed last month and we await the results in savings.
- The carpet, in areas of heavy footfall, is beginning to wear especially on doorways where there are joins. We have had several repairs done in the last two or three years but the fitters tell us that this is no longer an option.
- Bookings and enquiries continue to come in at a steady rate.
- The School Prom season has just finished and we hosted 6 schools (2 more than ever before) with most of them re-booking for next year.
- Wedding package bookings are good, but many local people prefer to book their wedding by hiring the room. Consequently we host about three or four times more weddings than show on our accounts.
