Subject: Houses between Goodshaw Avenue and Driving Gate

Dear Sir

I wish to register my objection to the proposal to build houses in this area.

It is a small development which is proposed but its effect on the area will be considerable. There already little enough recreational land in the area and to take away what little remains is unacceptable.

There is also the question of access. Surrounding roads are often restricted by parking leading to the need for traffic to reverse or to find another route. Little thought has been given to emergency vehicles whose progress will be impeded by the additional parking and traffic which this proposal would generate

James Pilling
