Appendix E: Sites where Planning Permission expired in 2021/2022	54

Important Notice - Disclaimer

In relation to the information contained within this report (and any other report relating to the findings of Rossendale's Housing Land Supply), the Council makes the following disclaimer, without prejudice:

- The inclusion of potential housing sites, buildings or areas does not preclude them from being developed for other purposes.
- The boundaries that are attached to sites, buildings and areas are based on the information available at the time. The report does not limit an extension or contraction of these boundaries for the purposes of a planning application.
- The exclusion of sites, buildings or areas from the study (either because they were never identified or are identified as being constrained) does not preclude the possibility of planning permission for residential development being granted on them or for these sites being allocated. It is acknowledged that sites will continue to come forward (particularly small sites) that will be suitable for residential development that have not been specifically identified in this report.
- The capacity identified on the sites either relates to the numbers granted within a planning permission (where applicable) or is an estimate based on an appropriate density for the site in question. In arriving at these densities, Officers have taken into account locational and sustainability factors along with issues around local character and general views on the site. However, the capacities identified do not preclude densities being increased on sites, subject to details. Nor does it mean that the densities envisaged within the assessment would be appropriate and these would need to be assessed through the normal planning process when submitting a planning application.
- The study is only a 'snap-shot' of information held at the time of writing. Therefore, some of the information held on the database will be subject to change over time. For example, sites that are identified as not having planning permission may have secured permission since the information was compiled, whilst planning permissions may have lapsed on other sites. The Council intends to use the report as a 'living document' that will be continuously updated with a comprehensive overall update each year.
- Information in the study has been based on thorough research and is to the best of our knowledge. Should you identify any discrepancies or inaccuracies in the report please email forwardplanning@rossendalebc.gov.uk and we can update the information accordingly.

1. Introduction

- 1.1 The National Planning Policy Framework (NPPF) sets out in paragraph 74 that “local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years’ worth of housing against their housing requirements set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old”. The 5 Year Housing Land Supply (5YHLS) Report provides the housing land supply for the period from 1st April 2022 to 31st March 2027.
- 1.2 Please note that the report has a base date of 1st April 2022 and therefore reflects the housing land supply as of this date. It reports on completions that have taken place in the previous financial year (2021/2022) and the remaining capacity on sites that were under construction, had an extant (current) planning permission for housing and other specific deliverable housing sites as of the base date. Inevitably, there is some delay between identifying all the required information for the report and its publication and changes will have occurred on these sites within this time (for example, new sites will have gained permission and construction may have commenced/progressed on existing sites). The report is updated annually and these changes will be reflected in the next report.
- 1.3 National planning practice guidance requires the housing target against which the five-year housing land supply is assessed to be based on either a “Local Housing Need” figure calculated using the Government’s standard methodology for assessing housing need or the housing requirement set out in an adopted Plan.
- 1.4 The Core Strategy has now been replaced by the Rossendale Local Plan 2019 to 2036. This has a housing requirement of 208 dwellings per year between 2019/20 and 2020/21 and 185 dwellings per year from 2021/22 to 2035/36 or 3,191 over the 17 year period covered by the Plan (2019-2036).
- 1.5 The main purpose of this report, is to identify the number of completions that have taken place during the previous financial year and the number of dwellings that are considered to be deliverable over the five-year period from the 1st April 2022. The report will assess the housing supply against the newly adopted Local Plan housing requirement

2. Monitoring and Review

- 2.1 The Council monitors housing delivery on an annual basis and uses this data to inform and update the five year supply. The 5YHLS report sets out how planning policies have performed and been implemented over the previous financial year, including historic housing completions and future housing trajectories.
- 2.2 The Authority Monitoring Reports (AMR) and 5YHLS reports are both available to view on the Council's website at https://www.rossendale.gov.uk/info/210148/local_plan/10636/.
- 2.3 The AMR will provide further analysis in respect of performance against the new targets set out in the Local Plan and will be available on the Council's website.

3. Calculating the 5 Year Requirement

- 3.1 Analysis of housing completions confirms that 137 new dwellings were built in Rossendale between 1st April 2021 and 31st March 2022, on sites still under construction and sites now fully completed (see Appendix A for a list of completions).

Rossendale Local Plan 2019 to 2036 Housing Requirement

- 3.2 As stated in the introduction, the housing requirement is set out in the Rossendale Local Plan 2019 to 2036. This report will present an analysis of the completions data against this requirement. 137 completions is below the Local Plan annual housing requirement of 185 dwellings. Graph 1 below charts housing performance in Rossendale over the ten year plan period to date.

Graph 1: Dwellings Built to date (Expected and Actual) – 1 April 2011 to 31 March 2022

3.3 As shown in Table 1 below, a total of 308 dwellings have been completed in Rossendale between 1st April 2019 and 31st March 2022.

Table 1: Housing performance against Local Plan trajectory from 2019/20 to 2021/22

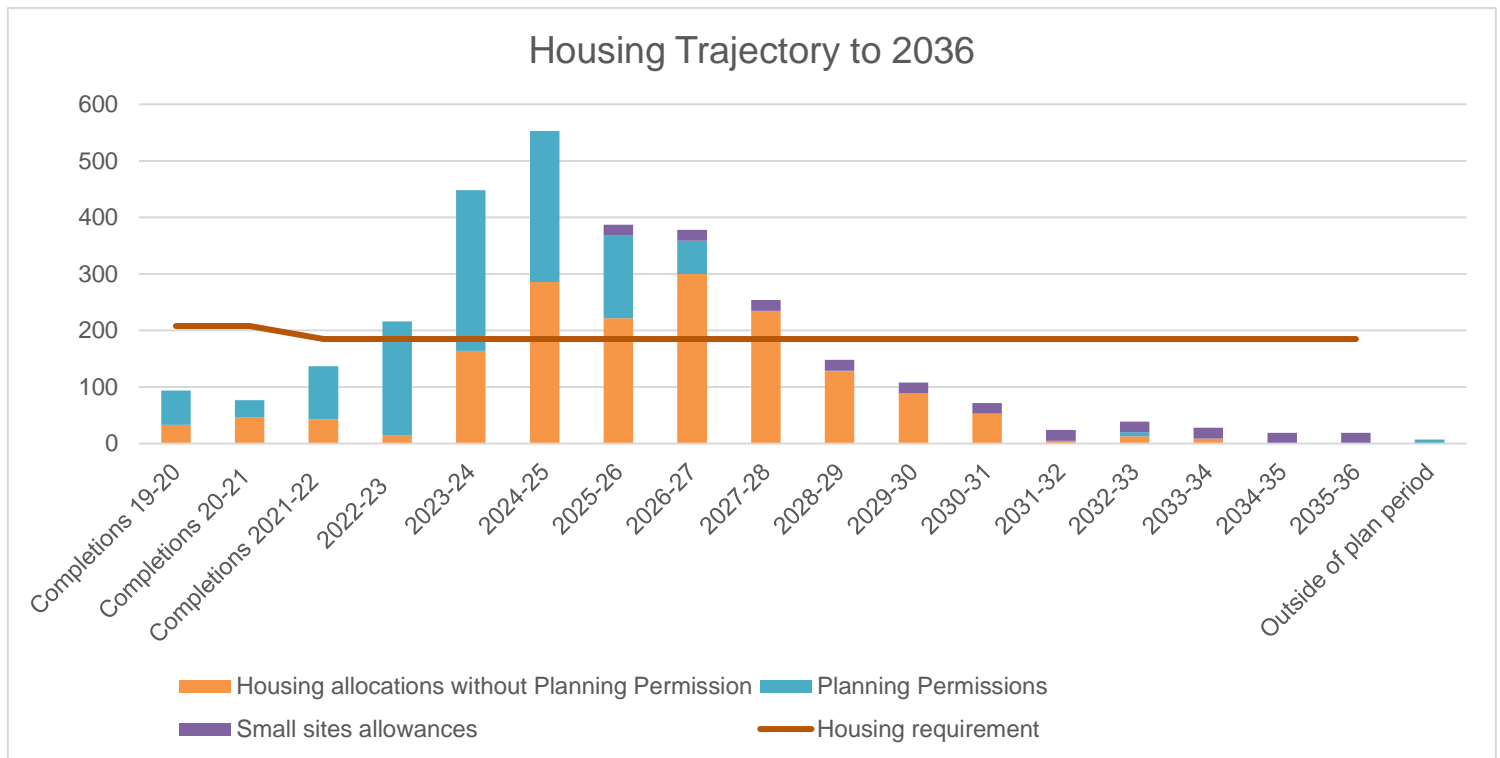

Year	Completions		Delivery against Rossendale Local Plan Requirement		
	Actual Completions	Cumulative Completions	Local Plan Requirement	Cumulative Local Plan Requirement	Cumulative under (-) and over (+) supply
2019/2020	94	94	208	208	-114
2020/2021	77	171	208	416	-245
2021/2022	137	308	185	601	-293

In Summary:

- **137 dwellings** have been completed in the last year (2021/2022), which represents 48 fewer dwellings than the Local Plan annual requirement of 185 dwellings.
- **308 dwellings** have been completed so over the new Local Plan period (2019 to 2036), which represents 293 fewer dwellings than the cumulative Local Plan requirement of 601 dwellings.

3.4 The Council continues to take the view that any assessment of local delivery is likely to be more robust if a longer term view is taken, since this takes account of the peaks and troughs of the housing market cycle. Graph 2 shows the anticipated housing delivery, known as 'Housing Trajectory'. This takes a realistic view of house building over the plan period taking into account the effects of the Covid-19 Pandemic, climatic variances and other factors impacting on the global supply chain, and their implications for the UK house building industry. As such, the expected delivery rates may vary from year to year. This will be updated in line with any new identified housing requirement in the future.

Graph 2: Rossendale Housing Trajectory (Rossendale Local Plan 2019 to 2036)

3.5 Paragraph 74 of the NPPF states that ‘local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years’ worth of housing against their housing requirement set out in adopted strategic policies or, against their local housing need where the strategic policies are more than five years old. The supply of specific deliverable sites should in addition include a buffer (moved forward from later in the plan period) of:

- a) 5% to ensure choice and competition in the market for land; or
- b) 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or
- c) 20% where there has been significant under delivery of housing over the previous three years, to improve the prospect of achieving the planned supply.’

3.6 Therefore, based on the previous assumptions, as Rossendale did not meet the required completion rate over the last three years, an “under delivery” of housing was identified. Furthermore, the result of the Housing Delivery Test 2022 shows that Rossendale delivered less than 85% of its housing requirement. So, as of the base date of this report, a 20% buffer (moved from later in the plan period) was considered appropriate. This allows more opportunity to achieve planned long-term supply and ensure choice and competition in the market for land.

3.7 In accordance with NPPF, the five year housing land supply is identified against the housing requirement set out in the strategic Policy HS1 of the Rossendale Local Plan (adopted in December 2021). This is set out in **Scenario 1**.

Scenario 1

3.8 Following the adoption of the Local Plan in December 2021, an annual housing requirement of 208 dwellings is set for the first two years of the plan (2019 and 2020) and 185 dwellings for the remaining years (2021 to 2036). The actual completions for 2021/22 fall short of the housing target of 185 dwellings (601 is the cumulative Local Plan requirement in year 3 of the Plan), resulting in a cumulative backlog of 293 dwellings.

Table 2 – Scenario 1 Rossendale Local Plan (2019-2036) annual target of 185 from 2022/23 to 2026/27

Serial	Component	Calculation	Amount
A	5 Year Requirement (Sum of Annual Targets above)	$185*5$	925
B	Backlog from under provision (2019-2022) $((208*2)+185)$	$601-308$	293
C	20% Buffer (20% of (A+B))	$(925+293)*0.2$	244
D	Total 5 Year Housing Requirement (A+B+C)	$925+293+244$	1462

3.9 Figures from the above scenario are used to identify the total Housing Land Supply (in years) that the Local Planning Authority can currently demonstrate, which is detailed in the next section of the report.

4. The 5 Year Housing Land Supply

- 4.1 Evidence contained in this report (as shown in Appendices B to D) provides a break-down of the Council's supply of deliverable sites between 1st April 2022 and 31st March 2027 this information is provided as of 1st April 2022.
- 4.2 The supply consists of deliverable sites in the following categories:
- The remaining capacity (i.e. number of dwellings) for residential development that is currently under construction;
 - The number of dwellings to be provided within extant (current) unimplemented (i.e. not yet started) residential planning permissions;
 - The number of dwellings to be provided on sites where there is resolution to grant planning permission (but no consent as yet issued);
 - The number of dwellings on allocated sites estimated to be delivered in the next 5 years (2022-2027)
 - A small sites allowance. (NB no windfall allowance has been included – see paragraph 4.4)
 - Sites on the Brownfield Land Register have been included where there is an extant planning permission.
- 4.3 Deliverability has been assessed using the definition of 'Deliverable' at Annexe 2 of the NPPF and guidance set out a Paragraph: 007 Reference ID: 68-007-20190722 (Revision date 24 June 2021 of the PPG <https://www.gov.uk/guidance/housing-supply-and-delivery#year-housing-land-supply>)
- 4.4 Housing land supply calculations typically include some form of allowance for sites that are not specifically identified but where it can be assumed they will come forward for development. Whilst paragraph 71 of NPPF states that windfall sites (sites that come forward unexpectedly for housing) can be included as part of anticipated supply, the Council has decided not to include a specific windfall allowance for the following reasons; the Council acknowledges that there has been a relatively high number of completions from windfall sites over the last few years, this was reflective of the, until recent adoption in December 2021, status of the Emerging Local Plan and earlier draft Local Plan which was withdrawn in 2014. This subsequently meant that most sites granted permission for residential development before the adoption of the Local Plan would have been classed as windfall sites, resulting in an inflated figure.
- 4.5 However, a small sites (less than 5 dwellings) allowance of 19 dwellings per annum is included, based on historic data, and was agreed as part of the Local Plan examination. For more information regarding the small sites allowance please refer to the Housing Update to 31 March 2021 which is included in Examination Library 12 of the Local Plan Examination Library ([EL12.007](#)).

- 4.6 Table 4 demonstrates that Rossendale’s supply of committed sites (i.e. where planning permission has been granted and is extant (at 31/03/2022), where planning permission is subject to a Section 106 agreement, and the number of dwellings on allocated sites expected to be delivered over the next 5 years) can deliver 2174 dwellings over the next five years. Once the small sites allowance of 38 dwellings is added, the housing land supply increases to **2212 dwellings**. Please see Appendix B to D for further information on the sites contributing to the supply.

Table 4: Breakdown of 5 Year Housing Land Supply 2022/23 to 2026/27

Category	Overall total	Total expected to be delivered 2022/23 to 2026/27	% of 5 year supply
Remaining Capacity - Dwellings with planning permission (see Appendix B)	1150	957	43.00%
Dwellings where there is a resolution to grant planning permission (see Appendix D)	238	238	11.00%
Dwellings on allocated sites (excluding dwellings with planning permissions or subject to a S.106 agreement)	1523	987	44.00%
Small sites allowance	209	38	2.00%
Total Number of Dwellings	3120	2220	100%

- 4.7 This housing supply of 2220 dwellings is used to calculate the 5 Year Housing Land Supply in Table 5 below.

Table 5: Housing Land Supply – Scenario 1: Rossendale Local Plan (2019-2036) annual target of 185

Serial	Component	Calculation	Amount
A	5 Year Requirement	185*5	925
B	Backlog from under provision	601-308	293
C	20% Buffer	(A+B)*0.2	244
D	5 Year Requirement	A+B+C	1462
E	Annual Requirement	D/5	292
F	Total number of dwellings identified through commitments, deliverable allocations, small sites allowance and resolution to grant for 2022/23 to 2026/27		2220
H	Land Supply	(F/D)*5	7.6

- 4.8 Table 5 shows that Rossendale Borough Council can demonstrate a **7.6 year supply** against the housing requirement of the local housing need estimated at 185 dwellings per annum inclusive of the backlog and 20% buffer (Scenario 1).

- 4.9 The 2021/2022 Housing Land Supply Report includes housing allocations identified in the Rossendale Local Plan 2019 to 2036, where the site is considered 'deliverable' (development is likely to happen within 5 years). Where proposed housing allocations have an extant planning permission for the whole site dwellings are included in Appendix B and not reported in Appendix C to avoid double-counting. Where part of the site has planning permission, the dwellings are split between the Planning Permissions Table and the Site Allocations Table. A separate 'Completions' Table is also available in the Appendix A and provides details of all dwellings completed between 01/04/2021 and 31/03/2022.
- 4.10 For information the NPPF definition (Annexe 2) of 'deliverable' is: 'To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within 5 years'.

5. Summary

Requirement

Rossendale Local Plan (2019 to 2036) Housing Requirement

5 Year Housing Requirement (including shortfall and 20% buffer)	1,462
---	-------

Capacity within the Identified Five Year Housing Land Supply (2022/23 to 2026/27)

Remaining no. of dwellings on sites with planning permission	957
No. of dwellings on Allocated sites	987
No. of dwellings with resolution to grant permission	238
Small sites allowance	38
Deliverable capacity	2220

Supply in Years

Years supply (Scenario 1 – Rossendale Local Plan 2019 to 2036)	7.6
--	-----

Appendix A: List of Housing Completions

The list of housing completions monitored between 1st April 2021 and 31st March 2022 is shown below.

Table 6: List of housing completions (2021/2022)

The site allocation reference number in the Rossendale Local Plan 2019 to 2036 (starting with an 'H') has been added for information.

Application Number	Site Name	Net Dwellings Approved	Dwellings Built (Completed) 2021/2022	(Total) Net Dwellings Completed	Dwellings Remaining on Site (No Start / Under Construction)	Site Completed (21/22)	Greenfield or Brownfield

Appendix B: Residential Development on Sites with Extant Planning Permission

The monitoring of housing delivery requires the Council to record and update the progress of delivery of development on allocations and sites with planning permission. Dwellings remaining on sites with planning permission (no start and under construction) at 01/04/2022 are included in the housing supply, unless the Council has evidence that the site is unlikely to come forward in the first five years in accordance with the NPPF criteria of 'deliverable'. The phasing of delivery is also indicated.

All sites with full planning permission are included in the five year housing land supply, unless there is evidence to suggest they will not come forward within this period. Sites with outline planning permission are included if the development proposes fewer than ten dwellings or there is evidence to demonstrate that the site will come forward in the next five years.

Updated information on 'no start' and 'under construction' residential planning permissions has been confirmed through site visits and contact with agents / developers / landowners, and through updates from Council Officers in Forward Planning, Development Control and Building Control. Information is as accurate as possible and provides a snapshot of the latest situation as of 1st April 2022. Expected delivery rates, where possible, have been established through discussions with developers. The table below (Table 7) identifies planning permissions across the Borough that have not yet been completed and did not expire before the 1st April 2022. Please contact the Forward Planning team at forwardplanning@rossendalebc.gov.uk if you consider any of this information to be incorrect.

Appendix B identifies housing sites across the Borough with planning permission, with and without a start. As noted previously, please be aware that where it has been recorded that a start has been made, this should not be used for any other purpose. Should a formal confirmation be required a Lawful Development Certificate should be applied for. It is possible to find more information on Lawful Development Certificates, as well as how to apply, by visiting the Rossendale Borough Council website or clicking [here](#).

Table 7: Residential Development with Planning Permission

The following table shows sites with planning permission in Rossendale can deliver 957 dwellings between 2022/23 to 2026/27, 7 further dwellings with planning permission are expected to be delivered outside of the plan period.

Planning Application Ref	Site Name	Estimated Delivery	Total Completions	Completions 2021-22	Site Complete?	Total (net) dwellings granted planning permission	No of dwellings with permission remaining														Outside of plan period	Application type (Outline, Full, Reserved Matters, Permission in Principle, Technical Details Consent, Prior Approval)		
							22/23	23/24	24/25	25/26	26/27	27/28	28/29	29/30	30/31	31/32	32/33	33/34	34/35	35/36

Appendix C: Allocated Housing Sites in the Rossendale Local Plan 2019 to 2036

Table 8: Allocated Sites in the Rossendale Local Plan 2019 to 2036

The following tables shows sites allocated in the Rossendale Local Plan 2019 to 2036 can deliver 987 dwellings between 2022/23 to 2026/27. 532 further dwellings allocated in the Local Plan are expected to be delivered beyond this period.

Appendix D: Sites where there is Resolution to Grant Planning Permission

In the following case the Council has resolved to grant permission subject to the signing of a legal agreement. It can be assumed that the site will become deliverable as soon as the obligation is signed and the permission is issued.

Information contained in this section is confirmed from Council Officers in Forward Planning. Information is as accurate as possible and provides a snapshot of the latest situation as of 1st April 2022.

Table 9: Sites where there is Resolution to Grant Planning Permission

Planning Application Ref.	Site Name	Greenfield or Brownfield	Achievable & Viable	Net Number of Dwellings Approved	Predicted Dwelling Delivery				
					2022-2023	2023-2024	2024-2025	2025-2026	2026-2027
2019/0335 (H68)	Grane Village, Helmshore	GF		131	19	38	38	36	0
2020/0008 (H36)	Land off Todmorden Road, Bacup	GF		29	0	20	20	13	0
2021/0271 ³	Former Slingco Ltd. Site, Station Road	BF		37	0	15	15	7	0
2021/0500 (H22) ⁴	Land at Blackwood Road, Stacksteads	Mixed		41	0	0	20	21	0
Total no. of dwellings left to build on sites where there is a resolution to grant				238					
No. of dwellings left to build identified as deliverable 2022/23 to 2026/27				238					

Table 9 shows that there are 238 dwellings in the pipeline with resolution to grant permission, subject to signing of the corresponding Section 106 Agreements. Evidence available to the Council has identified the sites are 'deliverable'. There is a realistic prospect that all housing will be delivered within 5 years, with the 238 dwellings being considered deliverable between 2022 to 2027.

³ 2021/0271 – Former Slingco Ltd. Site – s106 agreement was signed on 06/04/2022

⁴ 2021/0500 – Land at Blackwood Road – s106 agreement was signed on 05/05/2022

Appendix E: Sites where Planning Permission expired in 2021/2022

The following Planning Permissions passed the date of expiry as stated on the Planning Decision with no start being made and as such these Permissions have been removed from the housing supply. These Permissions can no longer be implemented without a re-submission, or evidence to prove a start had been made before the expiry date. Please contact the Forward Planning team at forwardplanning@rossendalebc.gov.uk if you consider any of this information to be incorrect.

Information contained in this section is confirmed from Council Officers in Forward Planning. Information is as accurate as possible and provides a snapshot of the latest situation as of 1st April 2022.

Table 10: Sites where Planning Permission expired without a start in 2021/2022

Planning Application Ref.	Site Name	Expiry Date	Net Number of Dwellings Approved
2018/0121	Land adjacent 7 Lynns Court, Weir, Bacup	04-Jun-21	3
